Guarantee scholarships for sufficient time to complete a bachelor’s degree (provided the student remains in good academic standing).

Further strengthen academic progress requirements for postseason play.

Adjust restrictions to not unnecessarily deprive student-athletes of counsel from agents and other professional advisers.

Decrease out-of-season time demands, and consider shorter seasons in specific sports.

Decrease the in-season time demands on athletes and enlarge the time for studies and campus life by:

(a) Preventing organized “voluntary” practice from circumventing the limit of 20 hours per week.
(b) Better assessing time away from campus and other commitments during seasons (including travel).

Depending on possible age limits in the NBA, consider restoring the freshman ineligibility rule in men’s basketball.

Provide reasonable ongoing medical or insurance assistance for incapacitating injuries from competition or practice, and continue efforts to reduce disabling injuries.

Permit scholarship awards up to the full cost of attendance.

Further strengthen academic progress requirements for postseason play.

Decrease out-of-season time demands, and consider shorter seasons in specific sports.

Decrease the in-season time demands on athletes and enlarge the time for studies and campus life by:

(a) Preventing organized “voluntary” practice from circumventing the limit of 20 hours per week.
(b) Better assessing time away from campus and other commitments during seasons (including travel).

Decrease out-of-season time demands, and consider shorter seasons in specific sports.
